dutch design pottery and more.

Pottery pots is a global brand with Dutch roots, developing and selling high quality planters and related products, from jumbo pottery to small accessories and from glossy to rough finishes.

The company has its headquarter, showroom and warehouse in Hazerswoude-Dorp, the Netherlands. The North and South American market is operated from our showroom and warehouse in Burlington, New Jersey and our showroom in Atlanta, Georgia; both in the United States of America. We also have a warehouse in Vietnam, from which we ship containers.

Since our foundation in 2008 we aim for an extensive assortment that is based on the belief that design should be available for everyone. That is why we are always looking for the perfect balance between design, quality and price. Every pottery pots product is designed from a simple but clever perspective. We believe in basic forms and shapes, without thinking of it as boring. This no-nonsense way of thinking and designing is assigned to the Dutch identity, and is widely known as 'Dutch design'.

At pottery pots we want every indoor and outdoor space to stand out. To achieve this, we developed a wide selection of lightweight fiberstone planters to make sure we always have a suitable product for your project in stock.

With our 15 years of experience in selling pottery we know how to give you the best advice. We know buying pottery can be a challenge, but we are here to help you. Whether you need to choose your assortment for the next season or you would like to know which planter suits best in your project, our aim is to serve you the best pottery.

On the Move!

We are proud to tell you that we are moving. After more than 8 years we will exchange the lively environment of the flower auction in Aalsmeer for a new location in the middle of the green "horticulture" heart of the Netherlands.

The building

We are currently working hard on the construction of a new building that will be built completely hybrid. A building of concrete and imposing wooden beams that will show everywhere in the showroom and warehouses. With more than 100 solar panels and the use of heat pump, the building is completely energy neutral.

Our office is designed entirely in loft style to emphasize the international character of the company. We deliver worldwide and like to be inspired, both in the development of our collections and in the design and furnishing of our new office. Our new show garden will also be laid out ecologically to inspire you!

What to expect when you visit us

An office of 700m² divided over two floors. A 1400m² showroom on the mezzanine above the warehouse where we will show you a complete shop-in-shop concept. You will also be able to look directly at the warehouse to get an impression of our high stocks.

The warehouse has a surface of 7600m² and is 12 meters high and is very efficiently arranged. All to make sure we can pick your orders and supply you even faster. Collection of your orders will also become more easy with our 4 loading docks and various overhead doors.

2023

At the beginning of 2023, Pottery Pots will move to Finlandlaan 7 in Hazerswoude-Dorp. The new office and warehouse are located in the middle of the "growers" area of the Netherlands, across the former Boskoop plant auction. The new building is centrally located and easy to reach from all corners of the world and is a 35-minute drive from our current office and warehouse in Aalsmeer.

rough

fiberclay

The rough collection is the rebellious one of the pottery pots family. With its 'less is more' mentality, the rough collection focuses on the tough character of the pot. The collection, with a fiberclay base, consists of modern planter models with the same characteristic finish available in many different colors.

- Made of fiberclay (cement and glassfibers)
- Ideally suited for round shapes
- Indoor and outdoor

bohemian

ficonstone

Inspired by travelling and stories, the bohemian collection is a perfect combination of natural colors and crafts. These planters are made with a unique process; traditionally woven baskets are turned into strong planters by using ficonstone on the inside. Due to the natural composition of the material, some color and size variations may occur.

Within the bohemian collection, you can choose between two different looks, each with a different material on the outside that is ecologically responsible: **bamboo** and **straw grass**.

Bamboo

- Handmade and unique
- Strong inside because of the combination of fiberglass and cement
- Pot always remains in perfect shape because it is made of strong material
- Standard drain hole with plug and feet for the best waterdrainage
- Indoor and outdoor

Straw grass

- Handmade and unique
- Strong inside because of the combination of fiberglass and cement
- Pot always remains in perfect shape because it is made of strong material
- Only indoors

IN GENERAL

1. Is there any damage caused to your planter? Easily touch it up with our **lacquer pen**.
2. Use the **maintenance oil** to preserve and enhance the surface of fiberstone black planters. The oil also protects against discoloration and simplifies maintenance.
3. Would you like to turn your planter into a pillar? Use one of our **toppers!**
4. Do not replace the planter after filling. The weight of the clay pebbles, the soil and the plant could cause damage to the planter.
